

**PRODUCT
DESCRIPTION**

Xtreme SAE 50 is a mineral-based oil used in gasoline and diesel vehicles where a monograde product is required.

APPLICATIONS

Xtreme SAE 50 ensures the protection of vehicle engines operating in different climatic and operating conditions.

Characteristics of this lubricant are:

- high protection against wear,
- high protection against varnish, sludge, and other pollutants,
- good protection against acid products deriving from the combustion of diesel fuel with high sulphur content.

**TYPICAL
CHARACTERISTICS**

| Xtreme SAE 50 | TEST PROCEDURE | TYPICAL VALUES |
|----------------------------------|-----------------------|-----------------------|
| SAE Viscosity Grade | | 50 |
| Density @15°C, kg/m ³ | ASTM D 1298 | ≥870 |
| Kinematic viscosity @100°C, cSt | ASTM D 445 | 16,3-21,9 |
| Viscosity Index | ASTM D 2270 | ≥ 98 |
| Pour Point, °C | ASTM D 97 | ≤-15 |
| Flash Point, °C | ASTM D 92 | ≥225 |
